

28 March 67

Mr. Duckett

Project [REDACTED]

25X1A

1. I checked out the Project [REDACTED] group and listened to the last 15 minutes of [REDACTED] (NPIC) talk this afternoon. Apparently most everyone has shown up with the exception of the two Admirals--B/G Collins is attending however. OTR feels that the Navy brass may show tomorrow. There was only one question asked of [REDACTED] after his talk. I understand this is normal for the first day when few questions are asked. It seems like they get additional courage over night, however.

2. Would you like to use this vu-graph in addition to the others (no. 1 attached)? I have the IR vu-graph (1/10 Mr). Have eliminated COMINT reference on publications vu-graph (no. 2 attached). Please give these to Ann, and I will pick them up from her.

3. See you in front of 1A07 tomorrow at 0935.
